25-Word Product Description	The CORSAIR K70 RGB PRO Mechanical Gaming Keyboard delivers an iconic aluminum frame and even better performance, powered by CORSAIR AXON Hyper-Processing Technology.
Product Features (Style 1)	• The K70 RGB PRO retains the iconic elements of the award-winning K70 RGB with a durable aluminum frame, CHERRY MX mechanical keyswitches, and per-key RGB backlighting, while setting a new bar for performance with AXON technology, PBT double-shot keycaps, and a tournament switch. • CORSAIR AXON Hyper-Processing Technology enables a new level of K70 performance, processing and transmitting your inputs up to 8x faster than conventional gaming keyboards with 8,000Hz hyper-polling, 4,000Hz key scanning, and up to 20 layers of hardware RGB lighting processing while maintaining speed performance.

	- 100% CHERRY MX RGB Brown keyswitches have a tactile bump mid-press for gamers and typists looking for light feedback, and are guaranteed for 100 million keystrokes. - Precision-molded PBT double-shot keycaps with a standard bottom row layout resist wear, fading, and shine, with 1.5mm thickness for rigid stability. - Flip the tournament switch and focus on winning that crucial game, automatically locking to distraction-free static backlighting and disabling accidental macro activations. - A detachable braided USB Type-C cable makes the K70 RGB PRO easy to set up and ready to take on the go. - A magnetic, soft-touch palm rest seamlessly snaps onto the keyboard, with a soft-touch patterned surface for grip and comfort during the longest gaming sessions. - Dedicated media and function keys control your media, while the signature CORSAIR aluminum roller smoothly adjusts volume levels and is fully programmable in iCUE software to perform custom actions. - Record macros on-the-fly with a convenient hotkey and save them to FN key combination shortcuts, for easy access to complex actions without sacrificing standard key functionality. - Store up to 50 onboard profiles with custom macros, actions, and your own unique vibrant RGB lighting effects, driven by AXON with up to 20 lighting layers. - Powerful CORSAIR iCUE software on both Windows and macOS enables dynamic RGB lighting control, key remaps and macro programming, and exclusive iCUE integrations with select games that turn your entire system's lighting into an extension of the action. - Full N-key rollover (NKRO) and 100% anti-ghosting ensures that every keypress registers, no matter how fast you play.
Product Features (Style 2)	- **The Legend Continues:** The K70 RGB PRO retains the iconic elements of the award-winning K70 RGB with a durable aluminum frame, CHERRY MX mechanical keyswitches, and per-key RGB backlighting, while setting a new bar for performance with AXON technology, PBT double-shot keycaps, and a tournament switch. - **Powered by CORSAIR AXON Hyper-Processing Technology:** Enables a new level of K70 performance, processing and transmitting your inputs up to 8x faster than conventional gaming keyboards with 8,000Hz hyper-polling, 4,000Hz key scanning, and up to 20 layers of hardware RGB lighting processing while maintaining speed performance. - **100% CHERRY MX RGB Brown Mechanical Keyswitches:** Feature a tactile bump mid-press for gamers and typists looking for light feedback, and are guaranteed for 100 million keystrokes. - **PBT DOUBLE-SHOT PRO Keycaps with Standard Bottom Row:** A precision-molded keycap set with a standard bottom row layout resists wear, fading, and shine, with 1.5mm thickness for rigid stability. - **Switch on the Competition:** Flip the tournament switch to focus on winning those crucial games, automatically locking to distraction-free static backlighting and disabling accidental macro activations. - **Detachable Braided USB Type-C Cable:** Makes the K70 RGB PRO easy to set up and ready to take on the go. - **Magnetic, Soft-Touch Palm Rest:** Seamlessly snaps magnetically onto the keyboard, with a soft-touch patterned surface for grip and comfort during the longest gaming sessions. - **Dedicated Media Keys and Volume Roller:** Easily control your media at the push of a button, while the signature CORSAIR aluminum roller smoothly adjusts volume levels and is fully programmable in iCUE software to perform custom actions. - **Onboard Macro Recording with Function Layer:** Record macros on-the-fly with a convenient hotkey and save them to FN key combination shortcuts, for easy access to complex actions without sacrificing standard key functionality. - **Up to 50 Onboard Profiles:** Save custom macros, actions, and your own uniquely vibrant RGB lighting effects, driven by AXON with up to 20 lighting effect layers. - **Unite Your Setup**: Powerful CORSAIR iCUE software on both Windows and macOS enables dynamic RGB lighting control, key remaps and macro programming, and exclusive iCUE integrations with select games that turn your entire system's lighting into an extension of the action. - **Full N-Key Rollover (NKRO) and 100% Anti-Ghosting:** Ensures that every keypress registers, no matter how fast you play.
