This Canyon CB-1 transformer bag will become your favourite daily companion! With 3.5L of capacity, it's compact, it's comfy, and it's versatile. Wear the bag on your shoulder or as a backpack, thanks to its smart adjustable strap. And don't sweat it – the backside is ventilated. Three inside and three outside pockets allow you to organise your everyday carry neatly. Even when it rains cats and dogs, this transformer bag won't let your stuff get wet – the material we used is water-repellent.
