

ASUS ZenWiFi BD4

Worry-Free WiFi 7 Smart Home Mesh

- Dual-band WiFi 7 speeds up to 3600 Mbps with MLO and 4K-QAM
- ASUS AiMesh technology boosts coverage up to 6500 ft² (3-pack) and easy extendibility with compatible ASUS routers for seamless and secure whole home WiFi
- Four internal antennas and four high-power front-end modules eliminate WiFi dead zones
- 24/7 end-to-end protection with commercial-grade AiProtection Pro and advanced VPNs
- IoT Network, parental controls & VPN easy setup on multiple devices with Smart Home Master SSIDs
- Dual 2.5G Ethernet ports with auto detection
- Quad-core 1.5 GHz CPU and robust cooling

Beyond-fast WiFi 7

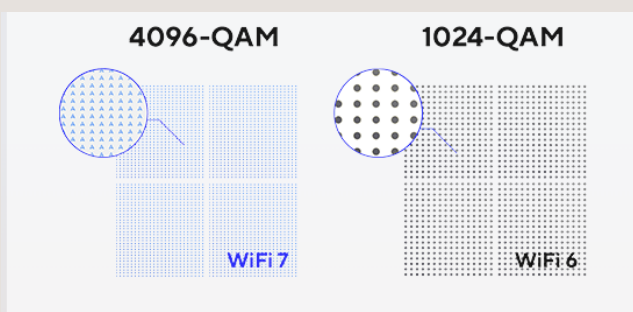

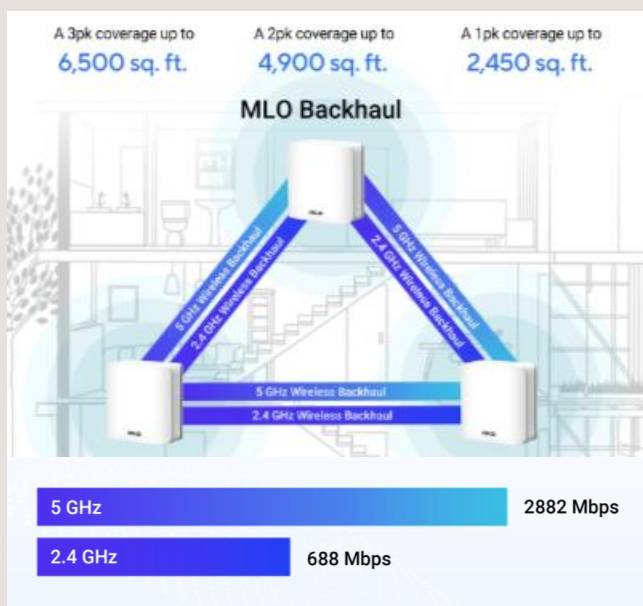

The new ZenWiFi BD4 introduces next-gen WiFi 7 speeds of up to 3600 Mbps and extendable coverage of up to 2450 sq.ft. (1pk), 4900 sq.ft. (2pk), 6500 sq.ft. (3pk) for your worry-free smart home. Empowers unbeatable cloud gaming, work-from-home heaven and ultimate 4K HDR entertainment streaming with the 2.5Gb ports.

Superior WiFi Performance

Dual-band AiMesh powered by AI delivers congestion-free and seamless connections. Innovative Multi-Link Operation (MLO) harnesses WiFi 7 by aggregating or switching between 5 GHz and 2.4 GHz bands simultaneously, enabling faster speeds with more reliable WiFi connections*.

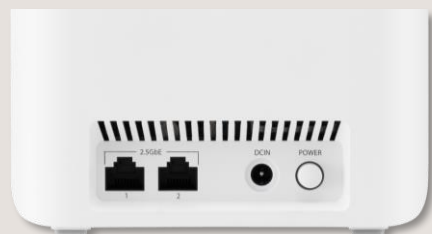

20% More Efficient with 4K-QAM

Compared to 1024-QAM with WiFi 6, 4096-QAM (Quadrature Amplitude Modulation) allows each signal to more densely incorporate larger amounts of data, delivering up to 20% more efficient data transmission.

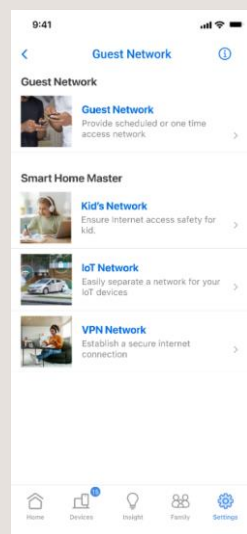

Dual 2.5G Ports

This future-proof system boasts dual 2.5G ports with AI WAN detection, making it ready to handle the ever-growing demands of your connected home. Experience ultra-immersive entertainment like 8K HDR gaming and streaming, or power home studio applications with ease.

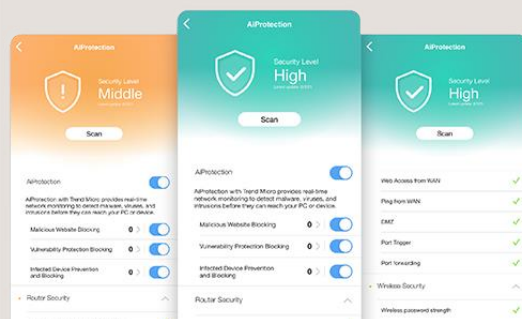

Smart Home Master

The ZenWiFi BD4 introduces the innovative Smart Home Master, a powerful and user-friendly tool for network segmentation with up to three SSIDs. This simplifies the process of creating and managing advanced subnetworks scenarios like creating a dedicated SSID for your children's devices, connecting to a VPN through a dedicated subnetwork, or even creating one secure SSID for all your IoT devices.

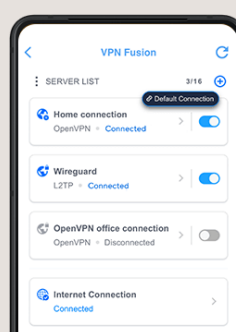

Commercial-grade AiProtection Pro

Stay safe with AiProtection Pro powered by Trend Micro™, with its comprehensive security suite to safeguard against ever-evolving online threats like malware and phishing attacks. The one-tap Security Scan gives you a quick router security check for your WiFi passwords' strength, port configurations, and more.

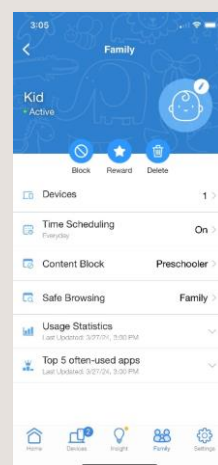

Comprehensive VPN features

The ZenWiFi BD4 offers extensive VPN capabilities, supporting various protocols including the latest Wireguard® for optimal performance. Whether you want to browse securely on public WiFi or access your home network remotely, the ZenWiFi BD4 has you covered. Its site-to-site VPN feature even lets you securely connect routers across different networks for seamless data transfers.

Advanced Parental Controls

The ZenWiFi BD4's built-in advanced parental controls empower you to nurture a balanced digital life for your kids – without subscriptions. Gain valuable insights into their online activity, customize settings seamlessly, and schedule internet access to promote healthy habits.
